

## Formulation Sheet

### Acid Toner

ACTS21937

**Description:** Toner that is buildable, not drying, and clears skin of breakouts. Zemea® works to keep skin moisturized after application. Lactic Acid: Lactic acid brightens, smooths, and evens skin, while also making it look firmer. Glycolic Acid: works to break the bonds between the outer layer of skin cells, including dead skin cells, and the next skin cell layer.

**Ingredients:** Water, PURAC® HiPure90, Glycolic Acid, Zemea® propanediol, Salicylic Acid, Glucono-Delta-Lactone

Phase	Volume	Ingredient	INCI	Supplier	Function
A	58.5%	Water	Aqua		Solvent
A	7%	PURAC® HiPure90	Lactic Acid	Corbion	Neutralizer
A	8%	Glypure™ 70	Glycolic Acid	Advanced Biotechnologies	Exfoliation
B	25%	Zemea® propanediol	Propanediol	DuPont Tate & Lyle	Humectant
B	0.5%	Salicylic Acid	Salicylic Acid		Active
B	1%	Glucono-Delta-Lactone	Gluconolactone	Jungbunzlauer	Preservative

#### Procedure

1. Premix B with heat then add to A with fast propeller stirring
