### Advanced Morning Ipeptide Serum

ACTS22213

**Description:** Morning under eye serum with humectant moisturization. This serum contains Ipeptide: attenuates the exaggerated inflammatory response of the alarmin, IL-33. It prevents damage induced by sleep deprivation, presents melatonin-like properties against glycation & peroxidation and reinforces the first line of immune defense, Vitamin C: thicken the dermis, diminish fine lines, and is essential for firm, youthful skin, and Seadermium: helps to thicken epidermis and stimulate collagen and glycosaminoglycans, important for skin fullness and moisturization.

**Ingredients:** Water, iPeptide™, Seadermium™, Yellow #5, FD&C Red 33, Zemea® propanediol, Vitamin C, TEXTURLUX® stabil, Keltrol® CG
