	Total				100.00%

Formula provided by: ACT Solutions Corp., Newark, Delaware, USA

Procedure

1. Stir with impeller until uniform.

Distinctives

This is a clear, anhydrous, modest intensity acne-fighting formulation great for spot treatment or overall acne maintenance.

The OTC Active is augmented by a medium level of Glycolic Acid which can be the real driver for getting and keeping skin clear.

Both therapeutic acids are carried by the 3-way moisturizer Zemea[®], allowing for gentle, sustained delivery of the acids with reduced irritation potential.
